

BEMA SWEEPERS UK & IRELAND

The bema range of sweepers cover a wide diversity of markets in agriculture, construction, industrial, municipal, waste recycling, groundcare and airports. In the bema range there is a model to suit all requirements from the budget priced Agrar 520mm brush, to the massive Titan model 920mm brush. There are ten other models available in working widths from 1250mm to 4550mm. The sweepers attach to tractors, forklifts, telehandlers, wheeled loaders, skid steers and specialist vehicles. Available with or without collectors.

bema 25 580mm brush

bema 30 Dual 600mm brush

bema 3 Robust 660mm brush

bema Jumbo 920mm brush

A serious approach is now required to deal with the problem of mud being deposited on the public highway after tractors and machinery are being transported from fields, bema has within their range of sweepers a model to address this problem.

A fleet of bema Jumbo sweepers with 920mm brush have been supplied to M.O'Brien Plant Hire Ltd for a long term maintenance contract on the M1 & M25 motorways. The sweepers are working day and night in arduous conditions.
